

# karlo

## bollard & spike

The modern garden pathway light KARLO is a beautiful solar lamp that can be used wirelessly anywhere outdoors. The garden path light gets its energy from the solar panel at the head of the fixture. The integrated LEDs shine and reliably illuminate the path. Thanks to the integrated motion detector, light is always available when a person approaches the luminaire. In this way, dark paths from the garage to the house can be illuminated effectively and safely.
